

EVERGREEN WOODS

North Branford, Connecticut

Project Description

Evergreen Woods is a 25 acre resort-like senior life care community located on the Branford and North Branford,

Connecticut line. Two decades ago, Giordano's self-performing sitework division prepared the property for the construction of numerous facilities. The scope of work included extensive clearing, earthmoving and grading as well as the installation of all infrastructure, roads, utilities, drainage, and retaining walls. Today Evergreen Woods remains an easily accessible senior living opportunity on a beautifully landscaped site with superior crafted infrastructure and utility connections that will continue to stand up to the test of time.

Services Provided
